Hello!

I am a passionate coding enthusiast with a strong foundation in computer basics and programming languages like Java, HTML, and C. My curiosity drives me to explore innovative fields such as Generative AI, Prompt Engineering, Video editing and Graphic Designing . Beyond coding, I am a skilled communicator and educator, with experience in teaching, presentations, and explanations.

Let me take you through some of my work and the creative process behind it!

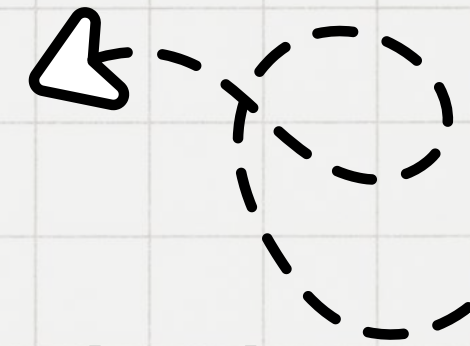

Education Background

SIES College
XII HSC 85%

Bal Bharti Public School
X CBSE 91%

Vidyalankar Institute Of Technology
Sem 1 - 9.3 Sem 2 - 9.9

Personal Skills

A Voice That Leads

Not just a speaker, but a storyteller — whether I'm hosting a school farewell, leading debates, or presenting ideas, I know how to turn attention into engagement and silence into curiosity.

Tech with a Twist

Whether it's Java, HTML, C++, or building AI chatbots with empathy, I learn fast, adapt faster, and love connecting logic with user experience.

Creative to the Core

From scripting events to composing poetry, I blend logic with imagination. I don't just solve problems — I redesign them to spark interest, meaning, or innovation.

Always Evolving

Workshops, competitions, storytelling forums — I don't just attend, I absorb. Growth is my habit, not my goal.

**Virtual Data Analyst Intern – Forage x Tata
Remote Simulation | 2024**
Role: Data Visualization Intern (Simulated)

Interpreted business data and visualized insights for real-world-like business scenarios.

**Core Member – Tech & Documentation
Council**
VIT Wadala | 2024 – Present
Role: Creative & Organizational Lead

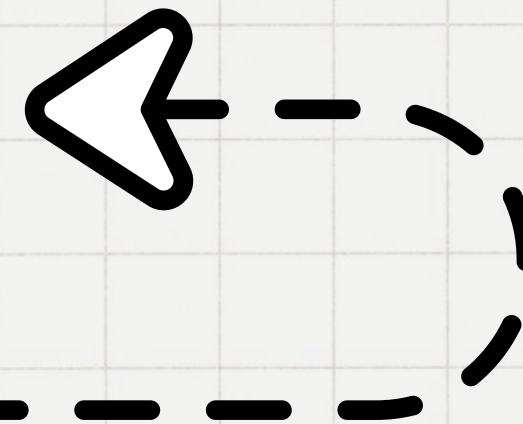

Managed logistics for tech events and ensured smooth team coordination. Designed promotional materials and maintained organized records.

**Project Manager – NPTEL PM 101 Course Project
Online (NPTEL) | 2024**
**Project Role: Task Planner and Roadmap
Designer**

Applied project management concepts (WBS, milestones, scheduling) to a sample tech project. Prioritized tasks using MoSCoW and SMART goals.

Work Experience

Project Portfolio

1 Project

Instagram Clone Project
Inspired by Insta. Designed by Me.

2 Project

SHOPPING APP
Tap. Shop. Smile

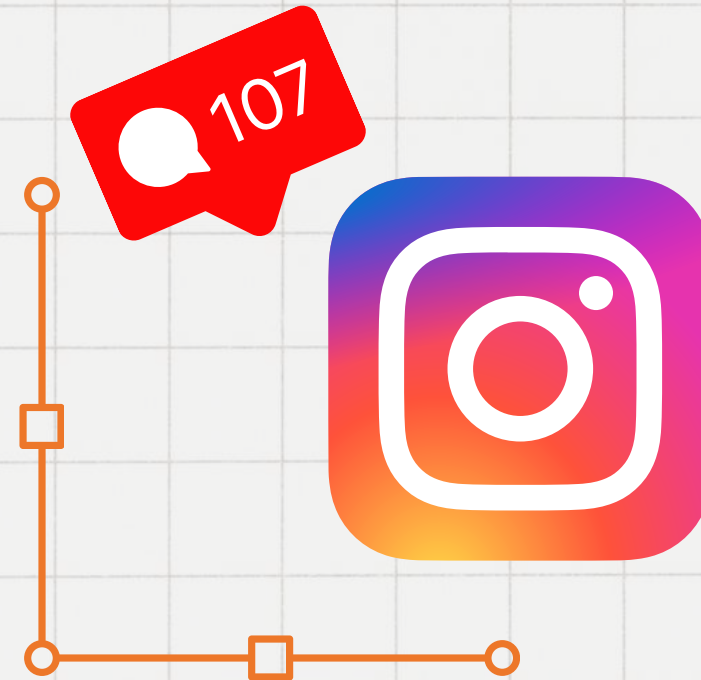

3 Project

Mentor – Mentee Platform
*MENTORLINK –Grow with guidance.
Shine with support*

To redesign the core user experience of Instagram by recreating its interface using Figma, with a focus on visual clarity, intuitive flow, and aesthetic precision — all from the lens of a student UI/UX designer.

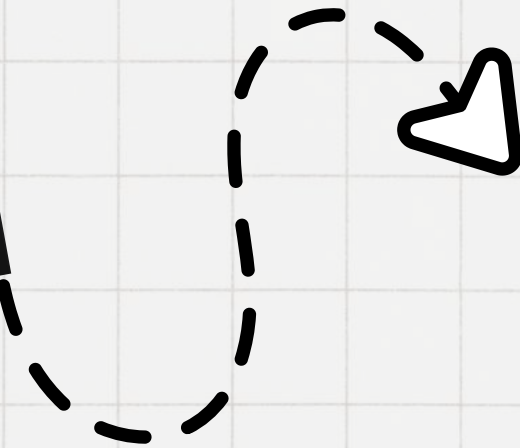

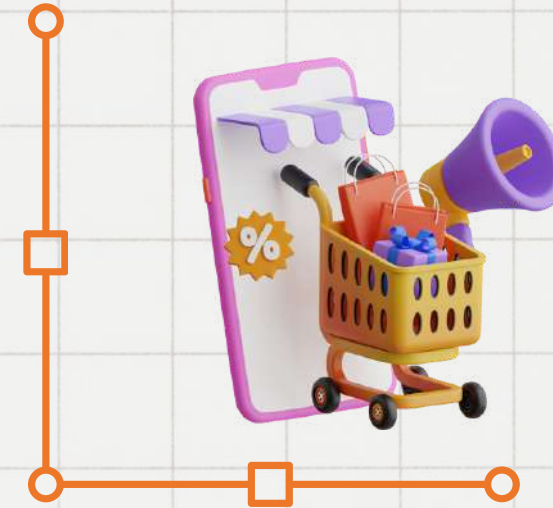

1 Project

Instagram Clone Project
Inspired by Insta. Designed by Me.

To create a minimal yet engaging shopping interface that simplifies decision-making, reduces cart abandonment, and gives users a delightful “add-to-cart” experience.

2

Project

SHOPPING APP
Tap. Shop. Smile

To design an intuitive mentorship platform that bridges the gap between learning and guidance, enabling meaningful mentor-mentee connections through streamlined communication, scheduling, and progress tracking.

3 Project

Mentor – Mentee Platform

*MENTORLINK–Grow with guidance.
Shine with support*

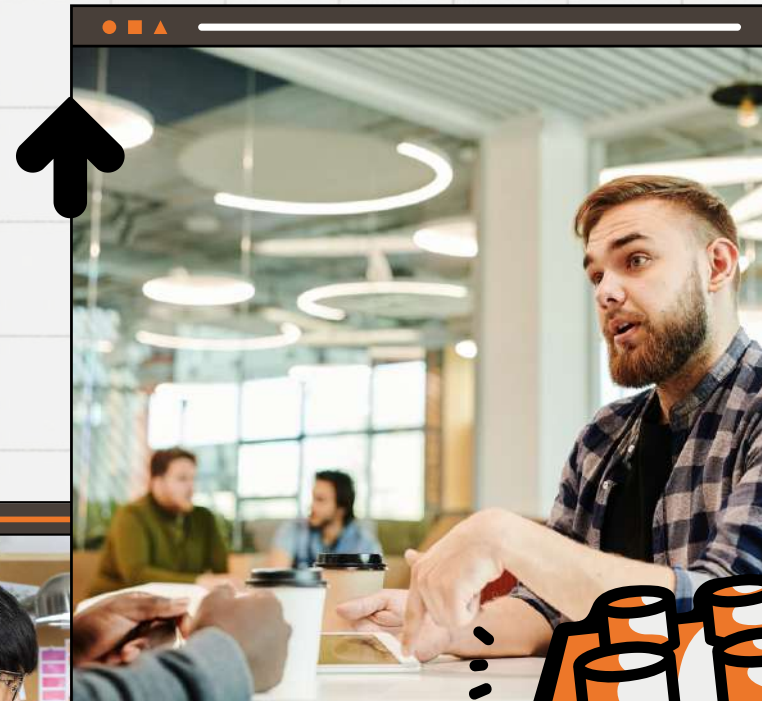

Ready to Work Together?

If you're looking for a creative mind with a tech edge to bring your ideas to life — I'd love to work with you! Whether it's a UI/UX design, a web concept, a student-led app, or a visual project, I'm excited to help you tell your story through design, functionality, and smart thinking.

Let's build something that doesn't just look good but feels right and works flawlessly.

Thank you for your time and consideration. Let's create something amazing together!
